Anaheim, 5 December 2017

Dear President / General Secretary,
Dear Colleagues and Friends,

Many of you were present at the recent IWF Congress in Anaheim on the eve of our World Championships where I made a presentation on:

- development of the 2020 Tokyo Olympic Games Qualification System
 - elaboration of the new Bodyweight categories
- and the timeline how the above two projects will be merged in the future.

As always, the IWF is dedicated to ensure a transparent process, for this reason please find enclosed my presentation and detailed information on the above mentioned two issues.

In order to achieve our goals by the set deadlines, I kindly ask you to send your questions, remarks and complex proposals by the following deadlines to me (attila.adamfi@iwfnet.net):

- by 15 December 2017 – regarding the 2020 Tokyo Olympic Games Qualification System
- by 1 February 2018 – regarding the new bodyweight categories

We are confident that our continuous fight against doping and especially the recently approved recommendations of the Clean Sport and Sport Programme Commissions will convince the IOC and our position on future Olympic Games and in the broader Sports Movement will be reinforced.

Thank you very much for your cooperation and valuable contribution.

Kind regards,
